

A large rounded rectangular area containing a tracing exercise. It consists of eight rows. Each row starts on the left with a mouse and ends on the right with a house. A dashed line connects the mouse to the house. The paths of the dashed lines vary: the first, third, fifth, and seventh rows are straight horizontal lines; the second, fourth, sixth, and eighth rows are wavy lines. The eighth row is unique, as the dashed line connects the mouse to a large, five-pointed star decorated with small circles. Small stars are scattered around the perimeter of this large area.
